## Final Rio Medal Event Programme

Dear President / Secretary General

IPC Athletics would like to advise you of the Final Rio Medal Event Programme that has been approved by the International Paralympic Committee Governing Board during their meeting in Tokyo from 5 – 7 June 2015.

In developing the Rio Medal event programme IPC Athletics have focused on the long term development of para-athletics. This event programme allows for stability, growth and development of the sport due to the use of the principles that have been applied throughout this process.

IPC Athletics believe that the process undertaken in the development of para-athletics in the areas of competition, classification and education has been successful in allowing the development the Rio Paralympic Games medal event programme.

Listed below you will see a number of the successful outcomes in the development process of the Rio 2016 Games Programme that are aligned with the original principles set out in 2011:

- 12.5% increase in overall participation between from the end of 2012 to the end of 2014
- 11% increase in female participation from the end of 2012 to the end of 2014
- 6.4% increase in female events at the Paralympic Games, changing from 60.6% male and 39.4% female in London 2012 to 54.2% male and 45.8% female in Rio 2016
- 22% increase in the number of female athlete's participating in para-athletics at the Rio 2016 Paralympic Games
- An increase of 21 events that cater for athletes with high support needs, split nine (9) male and twelve (12) female events

- 22.8% increase in licensed female athletes with high support needs from the end of 2012 to the end of 2014
- 25.6% increase in licensed male athletes with high support needs from the end of 2012 to the end of 2014
- 24.7% overall increase in licenced athletes with high support needs from end of 2012 to end of 2014
- Inclusion of a female visually impaired marathon

## Final Event Programme

### Male Event Programme

### Female Event Programme

The below table indicates the female events that did not meet the minimum eligibility criteria and the outcome of replacing event(s) against the IPC Athletics event replacement policy:

<b>Event(s) that are not Eligible</b>	<b>IPC Athletics Recommendation</b>
T44/43 400m	T44/43 400m would have been excluded due to lack of one (1) athlete. IPC Athletics have chosen to keep this event on the event programme.
